Contents

PREFACE **vii**

CHAPTER 1 Introduction and Basic Properties **1**

1.1 Polynomials and Rational Functions 1
1.2 The Fundamental Theorem of Algebra 11
1.3 Zeros of the Derivative 18

CHAPTER 2 Some Special Polynomials **29**

2.1 Chebyshev Polynomials 29
2.2 Orthogonal Functions 41
2.3 Orthogonal Polynomials 57
2.4 Polynomials with Nonnegative Coefficients 79

CHAPTER 3 Chebyshev and Descartes Systems **91**

3.1 Chebyshev Systems 92
3.2 Descartes Systems 100
3.3 Chebyshev Polynomials in Chebyshev Spaces 114
3.4 Müntz-Legendre Polynomials 125
3.5 Chebyshev Polynomials in Rational Spaces 139

CHAPTER 4 Denseness Questions **154**

4.1 Variations on the Weierstrass Theorem 154
4.2 Müntz's Theorem 171
4.3 Unbounded Bernstein Inequalities 206
4.4 Müntz Rationals 218

CHAPTER 5 Basic Inequalities **227**

5.1 Classical Polynomial Inequalities 227
5.2 Markov's Inequality for Higher Derivatives 248
5.3 Inequalities for Norms of Factors 260

CHAPTER 6 Inequalities in Müntz Spaces **275**

6.1 Inequalities in Müntz Spaces 275
6.2 Nondense Müntz Spaces 303

CHAPTER 7 Inequalities for Rational Function Spaces **320**

7.1 Inequalities for Rational Function Spaces 320
7.2 Inequalities for Logarithmic Derivatives 344

APPENDIX A1 Algorithms and Computational Concerns **356**

APPENDIX A2 Orthogonality and Irrationality **372**

APPENDIX A3 An Interpolation Theorem **382**

APPENDIX A4 Inequalities for Generalized Polynomials in L_p **392**

APPENDIX A5 Inequalities for Polynomials with Constraints **417**

BIBLIOGRAPHY **448**

NOTATION **467**

INDEX **473**
